RE: PROPOSED PART ROAD CLOSURE
REGATTA DRIVE, VALLA BEACH

Hi Nigel,

Due to engineering design constraints, we are seeking approval to close part of Regatta Drive as shown highlighted on the attached plan.

The main reason for this application is to allow a smoother road transition from the existing Regatta Drive (Council Road) to the newly constructed bitumen sealed road which will service the new 15 lot residential subdivision as well as access to Valla Beach Tourist Park.

I think John Hembry (engineer) has already discussed the issue with Keith Williams during the design process.

The Part Road Closure will be then consolidated into the future residential lots.

To offset the Part Road Closure on the East side of Regatta Drive to maintain a full 20 metre Road Reserve width, a similar section of Road will be opened directly opposite on the West side of Regatta Drive

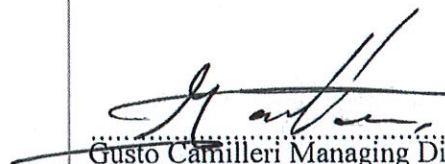

No services are contained within this section of road to be closed.

Could you please make the required application to close the part road.

Yours faithfully

Bill McDonald, B Surv, MIS N.S.W.
