- Drink water and cover your mouth with a damp cloth
- Stay down until the sound of the fire has passed

Setting up your site.

New primitive camping ground regulations only allow for 3 meter separation between sites for tents, unless additional tents are required on the same site.

(Please ensure your caravan is not blocking access for other campers to other camping sites allowing 6 m separation or you will be asked to move). Day visitors are not to set up in camping area at all times.

Caravans and camper trailers require a 6 meter separation with 1 tent allowed on these sites for children within the 6 meter area.

Camping Vehicles within the creek fenced area are required to park at a right angle to the creek. All vehicles and trailers must be parked to the front of the site, not beside it.

All vehicles within the remainder of the reserve must be kept on your camp site, with a maximum of 2 vehicles allowed or 1 vehicle and 1 x trailer.

If you are unable to find a site that meets the above terms and conditions the Reserve is considered FULL and you will not be able to stay.
