USE OF COUNCIL CONTROLLED ROADS BY OVERSIZE AND OVERMASS VEHICLES AND/OR LOADS

HOUSE MOVING GUIDELINES

The purpose of these guidelines is to ensure that large vehicles and loads which take up more than the usual space are moved safely and with a minimum of inconvenience to other road users.

Travel is only permitted on Council roads after the person responsible for moving the load has provided Council with the following information:

- a Copy of Relevant Permit (available from the Roads and Maritime Services)
- b Full route details including starting point and destination
- c Load size – width and height
- d Date and time of movement
- e List of identified physical restrictions eg road widths, bridge hand rails, signs, and roadside trees.

The movement of oversize and overmass vehicles and/or loads must be strictly in accordance with the requirements of the Roads and Maritime Services.

The above information is to be submitted at least 10 working days prior to the date of the move to allow assessment of the route by Council.

Council may apply additional restrictions based on local requirements.

By Resolution of Council: dated 16 August 2001.

PLEASE NOTE: With regards to persons lodging Development Applications for **relocated dwellings**, it is usual practice for the “House Removalist” contractor to provide the above information to Council direct. Please pass this guideline on to your removalist.

Enquiries please contact Manager Technical Services at Nambucca Valley Council on 02 6568 2555.
